Object: President candidacy of Marco Maria Scholaris

On behalf of the F.A.S.I. - Federazione Arrampicata Sportiva Italiana and its Board of Directors, I present again and fully support the candidacy of Marco Maria SCOLARIS as President of the International Federation of Sport Climbing.

This year marks 40 years since the first competitions of our beloved discipline were held in our Country, in Bardonecchia.

Since then, our discipline has begun a path of growth that has taken it from a sport of a few practitioners to a global sports movement, culminating in its entry into the Olympic and Paralympic Games program.

A path that has seen in Marco Maria SCOLARIS the best possible guide, thanks to his vision, his managerial skills and his human qualities.

The next four years will see our movement face the ultimate leap forward: a challenge to be won, together. The only way to be able to do so is surely to continue to put our trust in those who in these forty years have proven to be the best possible leader.

For all these reasons, F.A.S.I. is honored to continue to support Marco Maria SCOLARIS, and our wish is that it may be a choice shared by our entire world.

I hope to meet you all soon and continue the dialogue, discussion and planning to support together the growth of our beloved Sport Climbing.

The F.A.S.I. President
Dr. Davide BATTISTELLA
